SPECIFIC REQUIREMENTS – CATTLE

Animal Health Status

TB - Bovine Tuberculosis Eradication Scheme

All animals must come from herds, which are Officially TB free (OTF - i.e., not restricted) and the herd and relevant animals must have had a clear test within the previous 12 months – this test must be recorded on the Department's Animal Health Computer System (AHCS). In general, apart from cows, and males over the age of 36 months (see next paragraph) no pre-movement test is required for TB. However, it is recommended by the Department that a 30-day pre-movement test for TB should apply to all Shows. Animals which have disclosed inconclusive reactor results are not permitted to be moved for the purpose of exhibition at shows.

New Animal Health Law Requirements

From the 1 February 2023, cows and males over the age of 36 months that move from a show **to a different herd** must either have been tested in the previous 30 days or the animal and the herd presenting it to the show must have been tested in the previous six months prior to movement. If a cow, or a male over the age of 36 months, moves from a show to a different herd and does not meet the above criteria then a TB test must be carried out on the animal concerned within 30 days of its movement into the new herd. If after 30 days, the animal has not been tested, the herd into which it has moved will be restricted and if, after a further 30 days the animal has still not been tested then the entire herd will be listed for a TB test.

Bovine Viral Diarrhoea (BVD)

All bovine animals must have a negative BVD status for BVD virus (not antibody) when moving, including to shows, within the state. Regarding animals entering the state from abroad including Northern Ireland (NI), it is recommended these are tested for BVD and evidence provided to the show organiser. Some animals from NI may have been tested in the voluntary phase of the programme there. It is possible for a declaration of such negative results to be generated from the NI database and provided to the show organiser. Animals entering the state, including Northern Ireland, must have a valid E.U. Health Certificate

Bovine Identification & Mandatory Electronic Identification of bovines (EID)

Mandatory electronic identification (EID) of bovines has been implemented with effect from 1st July 2022. This means that all bovine animals born on or after 1st July 2022 must be identified with 2 official flag tags, one of which contains an EID component. All bovines born prior to 1st July 2022 must continue to bear 2 official flag tags as heretofore. There is no mandatory requirement that bovines in this age category bear an official EID tag.

Passports

All bovines attending shows must be accompanied by their passports.

Animal Identification and Movement (AIM) Notification

1. The movement of cattle to and from an Agricultural Show/Fair within the State must be recorded on the AIM System.
2. With effect from 4 February 2019 there is a specific Certificates of Compliance for the "Movement of Bovine from a Single Holding to a Show", form NBAS 31K refers.
3. The herd keeper must obtain the Certificate of Compliance prior to the movement of animals. The certificate can be created by (i) applying on-line using their agfood account or (ii) where the keeper is not on-line the certificate can be generated by the local Regional Veterinary Office (RVO) following receipt of a completed form NBAS 31 K.

4. The creation of a certificate is subject to normal movement criteria such as clear TB test etc.
5. A copy of form NBAS 31K is included at Appendix 2 and will also be available on www.gov.ie.
6. When applying for this certificate, the Show/Fair number is not required. The certificate generated will include an "S" symbol.
7. The Certificate of Compliance for a show will continue to be valid for a period of up to 30 days. As is currently the case, these can be used for the movement of animal/s to several shows during the validity period of the certificate. Requests to the RVO should be provided with sufficient time to allow for the certificate to be generated and issued especially where one cert expires, and another is required immediately. Keepers who are likely to attend at consecutive shows are strongly advised to apply using agfood.
8. Calves which are less than 10 days old cannot be moved to a Show.
9. The Movement Notification Section of the Certificate should be completed and signed by the Keeper. The form should also be signed / stamped by the Show Secretary who must clearly indicate the Show Number. The Show movement should be recorded on the passport. Ultimate responsibility for fulfilling these requirements lies with the Show Secretary.
10. If the animal/s move from the show to a herd other than the source herd, the new destination herd must also sign the certificate.
11. Completed forms must be sent by the Show Secretary to the local RVO within seven days of the Show. Failure to have movements recorded within the required time scale may have implications for the herd keeper/s involved.

Cattle being Moved from Northern Ireland for an Agricultural Show

Movements from Northern Ireland (NI)

It is very important that any proposal to move cattle to a show, including from NI, is made known to the local RVO well in advance so that consideration can be given to compliance with the requirements outlined below.

Premises

The show premises at which the cattle will reside for the duration of their stay must be an assembly centre approved for Intra Trade (movements to other Member States) or of such a standard as being capable of being approved for such a purpose temporarily. A fundamental requirement for such premises is that they have surfaces that are capable of being cleaned and disinfected and have adequate cleaning and disinfection facilities. Adequate segregation facilities may be required also (see under "Status of Animals" below).

Status of Bovine Animals moved from Northern Ireland for a Show
Cattle from NI being moved to a show must be certified in accordance with the normal animal health requirements for intra-community trade in breeding animals including having passed a TB test (INTRA TRADE interpretation) during the 30 days prior to movement.

To comply with eligibility requirements for return to Northern Ireland after the show
Cattle cannot mix with any cattle of a lesser health status while at the show.

This can be achieved in one of two ways:

1. either the moved animals are kept segregated fully from other cattle at the show which have not been tested, or
2. all cattle attending the show must have been TB tested (Intra Trade interpretation) within 30 days.

Documentation Required

1. Cattle moved to a show from NI must be accompanied by an original breeding Intra-Trade Animal Health Certificate (ITAHC) and a passport for each animal.
2. A TRACES message, corresponding with the TRACES certificate, will be sent for each animal or consignment being dispatched to the show (this will be performed by officials in the dispatching country).
3. For the return journey, this original certificate must be endorsed by the signature of the official veterinarian of the Department at the show, together with the official stamp of the competent authority and date of endorsement.
4. A TRACES message will be sent for the return journey also (this will be performed by Department officials attending the show).
5. In addition, a non-comminglement certificate must be issued by the official veterinarian for the show at or before return, stating that the animal shows no clinical signs of disease and has not been in contact, during its stay at the show/event, with animals of a lesser health status. The passport must accompany the animal on the return journey also.
6. CMMS 5 - In such cases and in addition to the above the Keeper/ Owner of the animals in conjunction with the Show Secretary must also ensure that a CMMS 5 document is completed and returned to the Animal Identification and Movement Division, Backweston Administration Building, Stacumny Lane, Celbridge, Co Kildare, W23 X3PH detailing those animals moved to take part in the Show. The keeper of the moved animal(s) is required to sign the form when the animal arrives at the Show and provide his/her herd number. Following the Show, the official veterinarian should complete the bottom portion of the CMMS 5 form also confirming that he has stamped the official Health Certificate and that he has issued a Non-Comminglement Certificate.
7. A copy of the CMMS 5 form is attached at Appendix 2 and will also be available on the Departments website/from the local RVO.
8. The Secretary/Keeper should retain a photocopy of the form if required.

Requirement in respect of Cattle being:

A. Moved to Northern Ireland for an Agricultural Show (and returned) and

B. Consideration regarding movement of cattle to an agricultural show within the EU other than NI

A. Movement to Northern Ireland

1. Cattle moving from Ireland to a Show in NI must be recorded on the Departments AIM database.
2. When the ITAHC is being issued by the local RVO, they will arrange to have the outward movement for the animal(s) recorded onto AIM. All cattle must be accompanied by an official TRACES ITAHC for bovine animals (BOV-X).
3. A TRACES message, corresponding with the ITAHC, will be sent for each animal or consignment being dispatched to the show (this will be performed by Department officials in the RVO).

Cattle for Breeding and Production

Valid identity card/passport

- all animals

Negative TB test (Intra Trade interpretation)

-all animals aged over 42 days within 30 days prior to movement

1. Regarding BVD, keepers will need to satisfy the RVO that
 - a. the proposed show will not accept animals from herds that have contained animals Persistently Infected (PI.) with BVD within the

past 18 months

b. all animals at the show will come from herds where every animal has either a direct or indirect negative BVD test.

2. An official certificate of non-comminglement should be issued by the veterinarian at the show, at or before the time of return.
3. All animals should be isolated for at least 14 days on their return to the herd of origin. The herd keeper should make arrangements with the RVO to have the animal(s) sampled for BVD antibody and antigen before mixing with the rest of the herd.
4. Keepers should be aware that if the results of these tests indicate that the animal(s) pose a risk to the National eradication programme, an epidemiological investigation may be triggered.

Note – Normal movement rules including the 30-day residency rule will apply.

B. Movement of cattle to an agricultural show within the EU other than to Northern Ireland

Agreement for the movement and immediate return of cattle to a Show in another country within the EU or vice versa currently **applies for movements between Ireland and NI only. Requests for cattle from Ireland to attend shows in countries other than NI will be dealt with on a case-by-case basis.**

Before the movement of cattle from Ireland to a Show in parts of the EU other than to NI takes place, it is imperative to establish that the Competent Authority of the destination country has agreed to put in place the same system for the processing of the documentation as applies to movements to NI. Therefore, exhibitors who wish to show cattle at an EU Show other than in NI should contact the local RVO at least one month prior to the Show.

Where the movement of cattle from Ireland is agreed with the destination country, the movement of such cattle must be recorded on AIM. When the official ITAHC for bovine animals is being issued by the local RVO, they will arrange to have the outward movement of the animal(s) recorded onto AIM.

Process to be followed to ensure that a record is generated to record the return of cattle from a Show to the Home Farm from:

. Northern Ireland and/or

. A location within the EU other than to Northern Ireland where applicable/approved in line with the above (additional to those noted below may also be requested where approved).

Documentation required.

Following the show, the following must be provided:

- a. The Intra Trade Animal Health Certificate (ITAHC) that accompanied the animal from Northern Ireland must be endorsed and stamped by the official veterinarian at the Show (a new ITAHC may need to be generated to accompany the animals if they are returning to a location other than Northern Ireland)
- b. A Non-Comminglement certificate
- c. CMMS 6 form: When the animal returns to the home farm, the keeper presents these Certificates to the RVO along with a completed CMMS 6 form stating that the animal has returned from the show. The RVO can then record the return movement back to the keeper's holding on the AIM system. A copy of the CMMS 6 form is attached at Appendix 4 and will also be available on the Departments website/from the local RVO. The Secretary/keeper show should retain a photocopy of the form if required.

SPECIFIC REQUIREMENTS – SHEEP

Animal Health Status

Identification

All sheep must be identified individually with appropriate ear tags issued in accordance with the requirements of the National Sheep Identification System (NSIS).

Movement Documentation

All consignments of sheep being moved must be accompanied by a completed dispatch document. Individual details of each sheep in the consignment must be recorded on the document. Sheep from non-restricted flocks only can be moved to shows. In the case of flocks restricted following diagnosis of scrapie, sheep possessing the ARR/ARR genotype only may be exhibited¹. The movement of these ARR/ARR genotype sheep must be accompanied by the relevant movement permit (SCR/10), which can be obtained from the Regional Veterinary Office responsible for the county in which the flock is located.

AIM Notification

The movement of sheep to and from an Agricultural Show within the State must be recorded on AIM. This is done using a copy of the owner's sheep dispatch document as follows:

1. The owner/keeper presents the signed and completed dispatch document to the show secretary who checks it to ensure that it is completed in full.
2. The show secretary fills in the MART section of the dispatch document with (i) the show number, (ii) the date of the move back to the source holding (iii) stamps it with the show stamp and (iv) signs the dispatch document.
3. The show secretary then forwards the completed pink section of the dispatch document to the local RVO within 7 days of the show movement.
4. The show secretary keeps white copy for his/her records.
5. The source/destination keeper keeps the bottom yellow copy to enter it into their flock register.

Ultimate responsibility for fulfilling this requirement lies with the Show Secretary.

Flock Register

All movements of sheep to and from shows must be recorded in the keeper's flock register.

Movement to Northern Ireland

All sheep must be accompanied by an intra trade animal health certificate (ITAHC) for ovine animals. A TRACES message, corresponding with the ITAHC, will be sent for each animal or consignment being dispatched to the show (this will be performed by Department officials from the RVO). Exhibitors are advised to contact the show society in Northern Ireland well in advance of any show to determine the suitability of the show for return of animals (e.g., premises and sheep status), and whether the authorities will have officials and veterinary staff present to supervise and process documentation for animals returning to origin.

Agreement for the movement and immediate return of sheep to a Show in another country or vice versa currently applies for movements between Ireland and Northern Ireland only – it does not apply for movements to Great Britain or further afield. Movements to shows other than Northern Ireland will be dealt with on a case-by-case basis, and you should contact your local Regional Veterinary Office at least one month prior to the Show.

Attendance of sheep from scrapie monitored flocks at shows and sales in 2023

Shows between 1st May and 31st October

Sheep from Scrapie Monitored Flocks² will be permitted to attend Agricultural Shows taking place between 1st May and 31st October, without restriction or separation from other categories of sheep.

Shows outside of the 1st May and 31st October Period

For shows taking place before 1st May or after 31st October, sheep from Scrapie Monitored or Probationary Flocks must be separated from other sheep as set down below.

- a. There must be complete separation of Monitored/Probationary sheep from other categories of sheep at the show. Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the two groups and separate sale rings for each of the two groups.
- b. In locations where all of the above may not be possible, the minimum requirement would be for separation of loading and unloading areas and also of penning areas. The two penning areas should be separated by a sheep-free alleyway by at least 12 feet wide. If only one show ring is available, the sheep from the scrapie-monitored flocks must be shown first.

Sales between 1st May and 31st October

Sheep from Scrapie Monitored Flocks will be permitted to attend sales taking place between 1st May and 31st October, without restriction or separation from other categories of sheep.

Sales outside of the 1st May and 31st October Period

For sales taking place before 1st May or after 31st October, sheep from Scrapie Monitored or Probationary Flocks must be separated from other sheep as set down below.

1. There must be complete separation of the two categories of sheep at the sale (monitored animals including probationary monitored animals and non-monitored animals). Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the three groups and separate sale rings for each of the three groups.
2. In locations where all of the above may not be possible, the minimum requirement would be for separation of loading and unloading areas and of penning areas also. A sheep-free alleyway should separate the two penning areas by at least 12 feet wide.
3. If only one sale ring is available, the procedures set out in the following two options must be adhered to.
 - a. The sheep from the Scrapie monitored flocks must be offered for sale first, followed by non-monitored animals or
 - b. The ring can be divided by gates into two sections to ensure that each of the two categories of animals is confined to a unique part of the sales ring.

¹ ARR (Alanine, Arginine, Arginine) homozygous for alleles 136, 154 and 171 of the sheep's prion protein.

² These flocks are flocks either accredited (full member) or in the process of accreditation (probationary member) for movement of sheep to other Member States (that might not possess ARR/ARR genotypes).

Important Notice to Animal Owners Involved in Showing Animals:

The I.S.A would advice all Animal owners who have their Animals insured to have the Insurance cover them while showing Animals at Shows. We understand that it cost very little or nothing at all depending on whom you have Insurance cover with.

If you are one of the few who don't have cover we would advise that you think about putting it in place for this purpose. It may be well worthwhile.

The reason for us giving you this advice is to protect yourself in the event of your animal lashing out, and injuring someone or damaging someone's property, if that were to happen, and it is established that your animal was out of your control you may be held responsible, or partly responsible for any injury or damage caused and may end up paying, all or part of any settlement reached.

The Irish Show Association would like to acknowledge the very generous grant made to 120 of our Shows by the Department for Rural & Community Development, and to thank Minister Heather Humphreys TD and Michael Ring TD for their great help. It will really make a great difference to the Shows many of which might not be able to run had they not received this funding.

The Irish Shows Association would like to acknowledge the Leader grant received for the ISA SuperShow Platform, an integrated show management IT system. The project is part-funded under the LEADER national co-operation programme, which is supported by the Department of Rural and Community Development and the Department of Agriculture as part of Project Ireland 2040. The project is being led out by Monaghan Integrated Development CLG in partnership with Avondhu Blackwater Partnership CLG, Galway Rural Development CLG and South-west Mayo Development Company CLG. This system will attract people to administrative positions due to the significant time and paperwork involved. Recognising the need to future proof their shows, the ISA set about seeking this funding to develop a cloud-based show management system to reduce the administrative burden on the agricultural show volunteers.

The Irish Show Association would like to acknowledge the grant from the Department of Agriculture Food and the Marine towards Insurance rebate. It does really make a great difference to our hard pressed Shows.

The Irish Show Association would like to acknowledge and thank FBD for the very generous grant they make available to us each year. We use the grant to promote safety at all our shows and provide High Visibility Vests to our Shows as well as holding Safety Seminars in our five Regions.

The Irish Farmers Journal and FBD have made available sponsorship and advertisement for our brand new Young Stock Person Championship. The Irish Shows Association would like to acknowledge this on behalf of our shows.

The Irish Show Association would like to thank and acknowledge the funding from Horse Sport Ireland over many years it is greatly appreciated by the Irish Show Association and all the Loyal Equine Breeders who avail of it and support our Shows.

We also want to thank all the other very generous firms & individuals who sponsor all our competitions and indeed our member Shows around the country year in year out. Without this support our Shows would not be able to continue in business.
